# LYNX RADIO

Your customers can now enjoy the ultimate portable listening experience, from the ultimate radio. Introducing the Lynx™ Portable Radio. It's the first portable radio that delivers live SiriusXM Internet Radio via Wi-Fi® and live SiriusXM Satellite Radio when connected to an optional home kit, vehicle kit or portable speaker dock. Features like Start Now will enable your customers to go back in time for up to 5 hours of missed programming, and listen to what they want, on their own schedules. Radio Replays automatically records up to 200 hours of content—so when they're out of satellite or Wi-Fi range, they can still listen to their favorites. Plus, they can bring their personal libraries with them. Life's little interruptions are no problem because they'll be able to pause, rewind and replay live radio. They can find out what's on, and when, with the exclusive Show Finder feature, then set Show Alerts for instant reminders. And, in addition to the unparalleled variety of channels we're known for, your customers will enjoy SiriusXM Xtra Channels—featuring more channels of music, sports and entertainment including SiriusXM Latino, a collection of dedicated Spanish-language channels.

Our most recent research shows that subscribers are seeking more control of when they listen. Their lives are busy, but they still want to be able to hear what they love on SiriusXM. The feature-rich, listen-whenver-to-whatever Lynx Portable Radio is not only the perfect radio for them, it's the perfect platform for you.

**MSRP: \$24.99**

# HOME PRODUCTS OVERVIEW

Your customers don't have to leave SiriusXM sitting in their driveways. Offer a full range of home products and help your customers take their listening experience beyond their vehicle and into their home or office. Offering a customized listening experience at home with Stand-Alone Radios, Home Tuners, Internet Radios, Home Kits and Signal Distribution Kits will lead to professional installation services as well. There is a wide assortment of Satellite-Ready products from the most respected names in home audio. Just add a compatible Tuner and your customers are ready to enjoy a fully integrated entertainment experience. For additional flexibility and convenience, your customers can select products that allow them to enjoy SiriusXM Internet Radio through a high-speed Internet connection.

HOME

### SiriusXM Internet Radios

Offer your customers products that deliver SiriusXM content through a wired or wireless high-speed Internet connection. Some devices have Internet radio built-in and others are dedicated for SiriusXM Internet Radio listening.

### Tuners for Satellite-Ready Systems

Add satellite radio to any Sirius-Ready® and XM-Ready® home audio system sale. Offer your customers the ability to control their favorite content directly through a receiver, home theater or other home audio system.

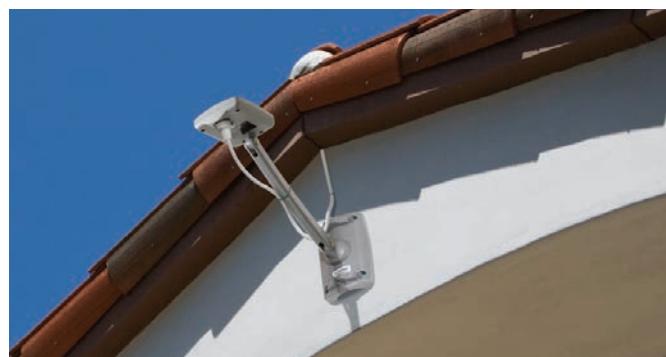

### Stand Alone Radios

Offer your customers a complete selection of products including traditional Tabletop Radios and Sirius Component Tuners.

### Accessories

Enhance your customers listening experience by offering products from our line-up of accessories, including sound systems, home kits and signal distribution kits. We have the accessories to make it easy to install SiriusXM in every room.

## SiriusXM Internet Radio Overview

We've always said SiriusXM sounds right at home. Now, it sounds indispensable. Your customers will have access to over 130 channels of the programming they love, no radio required. They can listen anywhere they have a broadband connection to the Internet. Our new Multi-Media Player interface design allows the user to see what artists, songs and programs are playing before changing the channel, as well as the ability to purchase songs.

But if they want to listen on another audio device, one SiriusXM Internet Radio subscription allows your customers to listen through a home audio system, a stand-alone Internet radio or enjoy a completely integrated experience from a SXIR-compatible A/V receiver from one of our partners.

## Satellite-Ready Overview

Whether your customers are looking for a top-of-the-line home theater system or a compact shelf system, SiriusXM has the right products to meet their needs and budget. For a seamless, fully integrated look and experience, nothing beats enjoying satellite radio through a Sirius-Ready® or XM-Ready® A/V receiver or home audio system. Your customers are in complete control of their music and entertainment. By adding a compatible Tuner, they can use their A/V receiver's remote to search and navigate SiriusXM programming directly through their home audio system's display or TV screen. If your customers already have a compatible Sirius Dock & Play or Portable Radio, an ideal solution could be a SiriusConnect™ Home Dock. Just add a SiriusConnect Home Dock and compatible Radio to a Sirius-Ready Home Audio System and your customers can enjoy all the benefits of a SiriusConnect Tuner PLUS a Radio that can be used in the vehicle or on the go—all with a single satellite radio subscription.

## XM Direct Home Tuner

XHD2H1

Connect and control Satellite Radio directly through a compatible XM-Ready® Home Audio System

### FEATURES

- Add Satellite Radio to XM-Ready Home Audio Systems from the leading manufacturers
- Single interface cable combines power, audio and control, providing a simple connection to an XM-Ready Home Audio System
- Compact size allows for discreet, hidden installation
- Includes: XM Direct Home Tuner and Indoor/Outdoor Home Antenna

**MSRP: \$79.99**

## Sirius-Ready

### SiriusConnect™ Home Tuner

SCH1

Connect-and-control Satellite Radio through any Sirius-Ready® home audio system

#### FEATURES

WORKS WITH

## SiriusXM Stand Alone Radios

It's never been easier to enjoy SiriusXM at home. Your customers can connect a component-style Tuner in their home theater or listen to a Tabletop Radio in any room of the house. Regardless of their needs, there's a perfect solution available from SiriusXM or one of our partners. Your customers can choose the type of equipment they want; you install it and help them activate it. It's that easy.

### Sirius Home Tuner

SRH2000

Enjoy satellite radio on any home audio system with this stand alone home tuner with RS232 control and dual-zone-tuning.

#### FEATURES

- Compatible with any home audio system that has an available analog or coaxial digital input
- Composite video output allows programming and menus to be controlled and viewed from across the room
- Pause, rewind and replay live Satellite Radio
- View artist name, song or program title and channel information on the large, easy-to-read display
- Dual Zone Capability provides two different channels throughout the house—just add a SiriusConnect™ Tuner or SiriusConnect Home Dock
- Flexible interface options allow control from the touch-sensitive front panel, remote control or external control systems using RS232 or the 12v wired IR input (with discrete commands for Zone 1 & Zone 2)
- F-type antenna connector allows use of RG6 cables for antenna installation—easily field-terminated and compatible with SiriusXM signal distribution kits (antenna sold separately)
- Rackmount hardware included
- Built-In signal strength meter helps position the antenna for optimal reception
- Output level control for consistent volume as you switch from Sirius to other sources
- Works on the **Sirius** Network
- Includes: SRH2000 Satellite Radio Tuner, Remote Control, RCA Audio Cable, Power Cord and Rackmount Hardware

**MSRP: \$349.99**

### Sirius Commercial Tuner

SRX

The first Sirius Tuner designed specifically for commercial installation with remote administration mode for the ultimate in unattended operation.

#### FEATURES

- Unique, intuitive single knob interface
- Full channel data display
- Dayparting (automated programmable on/off, channel number, volume)
- Channel blocking
- Front panel lock-out
- Custom PC control software
- Sirius-Ready® RS232 mode for other control applications
- 5-12v trigger output
- Active analog (0-2V RMS) and digital audio outputs
- F-connector antenna jack (antenna not included)
- Half-rackmount enclosure with accommodation for two units to make a single-rack system
- Optional network module for remote administration over the Internet
- Works on the **Sirius** Network
- Includes: Tuner, RS232 Adapter Cable and Power Adapter

*Note: Available through Audio Design Associates, [sirius.com](http://sirius.com) and Sirius4biz distributors.*

**MSRP: \$299.99**

**SRSMBF50**

Adapter that allows connection from standard cable to satellite connector.

#### **FEATURES**

- For use in custom home installations where splitting the signal is required

**MSRP: \$14.99**

## Apps for Smartphones & Tablets

Your customers can now enjoy their favorites on our SiriusXM Internet App. Our App can be downloaded for free and is full of revolutionary features to give your customers even more control of their listening experiences. Start Now allows them to go back in time up to 5 hours to select and listen to previously broadcast programming. TuneStart automatically starts the currently playing song from the beginning when the user tunes to their favorite channel. Life's interruptions are no problem because now, customers can pause, rewind and replay live radio. And they'll never miss the shows they love—Show Alerts allows them to set an alert to remind them when their favorite show is about to start.

Using the same subscription, customers can also listen on their computer or any Internet-enabled audio system and stay fully connected.

### iPad®
